6th OFF-GRID EXPERTS WORKSHOP

Exhibitor List
Status: 16. September 2019

Exclusive Partners

Steca Elektronik GmbH
Booth number: H7-C003

As an innovative electronics company with sustainable growth, we combine many years of experience and innovative strength as a manufacturer of Steca brand product lines in solar electronics and as an electrical service provider.

Mammostraße 1
87700 Memmingen
Germany

http://www.steca.com
marketing@steca.de
+49 (0)8331-8558573

Studer Innotec
Booth number: H7-C001

Studer Innotec SA is a Swiss manufacturer of sine wave inverters, inverter/chargers and MPPT solar charge controllers for off-grid-electrification. The company offers a 30-year-expertise in battery-based systems.

Rue des Casernes 57
1950 Sion
Switzerland

http://www.studer-innotec.com
serge.remy@studer-innotec.com
+41 (0)27-2056080
Victron Energy BV

Booth number: H7-C009

Victron Energy was founded in 1975 by Reinout Vader and is a family-run company. Victron develops and sells inverters, chargers and related products for energy conversion. These products are sold and addressed to off-grid / solar, mobility, industrial and automotive markets worldwide.

De Paal 35
1351 JG-Almere-Haven
Netherlands

http://www.victronenergy.de
bhopman@victronenergy.com
+49 (0)151-53034349

Event partners

AEG Power Solutions

Booth number: H7-H015

AEG Power Solutions utility scale converters can be used in on-grid and off-grid installation, including seamless transition between grid connected and isolated mode and black-start. We are interested to cooperate with EPCs and integrators.

Emil-Siepmann-Str. 32
59581 Warstein-Belecke
Germany

+49 (0)561-31059061

---------------------------------------------

German Offgrid Power

Booth number: H7-K017

GOP German Offgrid Power offers efficient solutions wherever the connection to a power grid is associated with high costs or diesel power generators are expensive transitional solutions. German Offgrid Power - German quality power solutions.

Tübinger Str. 95
70178 Stuttgart
Germany

https://germanoffgrid.com
info@germanoffgrid.com
+49 (0)711-6645932

---------------------------------------------

Global Ice Tec AG

Booth number: H7-E005

GLOBAL ICE TEC AG is specialized in the development of refrigerators for the off-grid sector and for unstable power supply. The patented ice storage technology allows autonomous operation without power supply for up to 48 hours.

Matthesstraße 48
09113 Chemnitz
Germany

http://www.global-ice-tec.com
j.aldinger@global-ice-tec.com
+49 (0)371-27337075

---------------------------------------------
Mission Critical Energy Inc.

Mission Critical Energy is a specialized provider and integrator of off-grid electrical generating equipment including Superwind Wind Turbines and FlexSCADA Monitoring & Control systems designed for off-grid use in harsh and remote environments.

North French Rd 1801
14068 Getzville, NY
USA

https://MissionCriticalEnergy.com
Dettmer@MissionCriticalEnergy.com
+1 (0)716-2768465

MobilHybrid by PV4Life GmbH

The "MobilHybrid" is a type of mobile battery for a power supply that is independent of the mains and free of fine dust. In combination with the mobile PV system, construction sites, outdoor events, mountain huts and film productions can be operated in an environmentally friendly way.

Am mittleren Moos 48
86167 Augsburg
Germany

Ingenieure ohne Grenzen
Co-exhibitor at: id-eee

Engineers Without Borders is a non-profit private aid organization. The aim of Engineers Without Borders is to improve the living conditions of needy and disadvantaged people in the long term. The focus here is on sustainable, partnership-based support within the framework of a basic need-oriented development cooperation. In humanitarian crises, Engineers Without Borders provides short-term assistance to the suffering population if experience and existing partnerships can be drawn upon. In the spirit of global learning, Engineers Without Borders is also active at home. The focus here is on providing information and raising awareness of the challenges of development cooperation and on taking a holistic view of global interrelationships.

Phaesun GmbH
Booth number: H7-A004

Since the company was founded in 2001, Phaesun has specialised in the sale, customer service and installation of off-grid photovoltaic and wind power systems. As one of the world’s leading system integrators of off-grid power supply systems, Phaesun offers products from all renowned manufacturers in this industry. International project management, targeted customer training and technical support complete the comprehensive range of services.

The main applications of Phaesun solutions are rural electrification, solar-powered water pump systems and off-grid power supply for industrial applications.

Phaesun GmbH has been headquartered in Memmingen/Germany since its foundation. The Phaesun Group now has a subsidiary in France and sales offices in Panama and the Ivory Coast. In addition, the company has access to a worldwide network of partners and distributors. Phaesun thus contributes to a sustainable energy supply in the target markets of Europe, Africa, Latin America and the Middle East.
